What you bought

A single, formula-driven spreadsheet that does your hair & beauty business bookkeeping for you. Log each transaction once, and the workbook automatically organizes everything into a tax-ready **IRS Schedule C** summary and a live profit dashboard — per location. No subscriptions, no logins, no monthly fees. It's yours forever.

The 6 tabs

Tab	What it's for
Start Here	A one-page overview and tips. Read this first.
Setup	Type your location names (up to 5). Everything else links to them automatically.
Transactions	Your logbook. Add one row per income or expense. The only tab you touch daily.
Categories	Reference list of every category and its matching Schedule C line. Feeds the dropdowns.
Schedule C Summary	Fills itself in. Every expense mapped to the correct Schedule C line, per location.
Dashboard	Live totals: net profit, income vs. expenses, by location and by month.

Get started in 4 steps

- **1. Name your locations.** Open the **Setup** tab and type each location name in column B (replace the sample names). You can have up to 5.
- **2. Delete the sample data.** The **Transactions** tab has 8 example rows so you can see how it works. Once you understand it, delete those rows (select rows 4–11, right-click, Delete) before adding your own.
- **3. Log a transaction.** On **Transactions**, fill one row: pick the Date, choose the Location and Type (Income / Expense) from the dropdowns, pick a Category, enter the Amount. The Month column fills in by itself.
- **4. Read your reports.** Open **Schedule C Summary** and **Dashboard** any time — they update the instant you add a row. Nothing to refresh.

How to log it the right way (important)

- **Log service income and retail product sales separately.** And remember **tips are taxable** — log them under *Tips received* so your books are accurate.
- **Booth / chair rent is one of your biggest costs** — log it under *Booth rent / chair rent* every time you pay it.

- **Back-bar vs. retail:** products you *use* in a service are *Back-bar supplies*; products you *resell* to clients are *Retail products for resale (COGS)*.
- **Keep license, dues and class costs.** Cosmetology license renewals and dues go under *Dues & licenses*; continuing-education classes under *Education & classes*.

Use it in Excel or Google Sheets

Excel / Numbers: just open the .xlsx file.

Google Sheets: go to Google Drive → New → File upload → select the .xlsx. Then open it and choose *File* → *Save as Google Sheets*. All formulas, dropdowns and reports carry over.

Each tax year

Keep one file per year. At the start of a new year, make a copy and rename it (e.g. “Hair Stylist & Beauty Pro Tracker 2027”), then clear the Transactions rows. Your prior year stays untouched for your records.
